

Dear Friends,

Welcome to the first publication of MIA|Peterson Home!

Here at MIA|Peterson we have a passion for creating wonderful living spaces that perfectly suit your personality and lifestyle. Whether it's your

dream kitchen, the addition of a family room that seamlessly flows together with the rest of your home or that whole house transformation that says, "this is now my home and I love it!"

This publication is intended to provide you with both inspiration and useful solutions. We'll share with you our ideas about architectural and landscape design, help you understand the custom design-to-build process, show you the latest trends in interior design and provide practical information to help you protect your investment in your home. We have authored numerous articles for local and national newspapers and magazines over the past few years and felt that it was now time for a publication of our own focused on the needs of our homeowner clients—we hope you find it valuable.

With 25 years in the business and hundreds of delighted homeowners in the extended MIA|Peterson family, we always aim to provide guidance you can trust. As architectural designers, interior designers, landscape designers and builders we have a unique and holistic approach to creating the perfect home for you and your family that not only will excite the eye, but endure the test of time. From one room transformations to whole house remodels, you can be sure that your new home will be uniquely yours.

Please contact me directly if you would like to discuss any issue relating to your home.

I hope you enjoy MIA|Peterson Home.

ABOUT THE COVER

The lower level of this 1930's two-story brick colonial was a cold, dark and cramped space not fit for family living. As part of a whole house remodel, this limited-use basement was transformed into a functional, dual purpose space ideal for entertaining and family living.

The finished space includes walls covered with a six foot mahogany wainscot to create a rich monochromatic palette with the deep burgundy color of the upper-walls and ceiling. A sofa and two chairs with handsome chenille fabric were designed to rest on the far end of the billiard room to provide a comfortable place for friends and family to relax between games.
